EDUCATION

UNIVERSITY OF CENTRAL FLORIDA, Orlando, FL — Graduation: July 2027
BS in Mechanical Engineering, Burnett Honors College

DEAN'S LIST, Fall 2023, Fall 2025

NCEES FE MECHANICAL EXAM — March 2026

PROFESSIONAL EXPERIENCE

LAW OFFICES OF PETER P. MENDEZ, Orlando, FL — August 2026 – Present
Law Clerk, 12 – 18 hours/week

- Draft customized LLC documentation, wills, trusts, powers of attorney, health care surrogate designations, and participate in client consultations in English and Spanish.

PHILIPS MRI PATIENT MONITORING, Orlando, FL — January 2026 – July 2026
R&D Systems Engineer Co-op, 40 hours/week

- Held ownership of 1,500+ MRI system requirements to support development of compatible patient monitoring systems for critically ill, infant, and general patients.
- Directed 10 cross-functional FMEA meetings to identify root cause problems and design solutions, authored 200+ requirements after extensive research.

DANIELS MANUFACTURING CORP, Orlando, FL — May 2025 – November 2025
Design Engineering Intern (May – August), 30 – 35 hours/week

- Managed 45+ formal engineering change requests, resolving system issues through detailed documentation and improving process efficiency by 40%.
- Completed 30+ 2D/3D CAD models adherent to Mil-spec standards to support mission-critical programs led by NASA, the international space station, and federal defense contractors.

Manufacturing Engineering Intern (August – November), 30 – 35 hours/week

- Investigated manufacturing inefficiencies across 20+ machined parts, uncovering a 15-20% bottleneck that led to lean manufacturing improvements and increased production.
- Created 40+ CAD designs tailored for manufacturability, collaborating with machinists to ensure tolerance practicality, tool availability, and fixture compatibility.

SANDHURST CONSTRUCTION LLC, Orlando, FL — May 2023 – Present
Founder, Owner/Managing Member

- Provided construction and repair services for 20+ residential and commercial clients on projects ranging from $500–$10,000, managing budgets and limited materials.

PROJECT EXPERIENCE

AI TRACEABILITY TOOL, Philips — July 2026

- Co-developed an AI tool capable of identifying patterns between 14,000+ requirement linkages at different levels in order to comply with FDA traceability, intended to expand to DFMEA links.

STEEL PART DESIGN AND TESTING, Daniels Manufacturing Corporation — August 2025

- Designed a critical steel component from conception through creation using CAD 3D modeling and 2D drafting, while incorporating GD&T principles compliant with ASME Y14.5.

3-D PRINTED DEPLOYABLE MECHANISM, UCF — November 2025

- Used advanced kinematics and design software to create an original mechanism meant for zero-gravity environments, earning the highest grade in a class of 200+.

SKILLS

- 2D & 3D CAD/CAM Design (AutoCAD, ANSYS, Inventor, Fusion, SolidWorks); DFMEA/PFMEA; Additive Manufacturing, C/C++ Programming; DFM/DFA/DFT with GD&T
